But came to no definite conclusion.
It is desirable that the same man be

these bodies it is regarded as necessary
that the appointments should be made in that the appointments should be made in the next few-days. It is understood that

Judge Lamb has not as yet decided which is the proper will, and it will probably be several days before he shall have carefully looked over the evidence and considered the papers in the evidence and considered the papers in the case.

NEW YORK STOCK MARKET. NEW YORK, June 12.—The stock mar-ket to-day was characterized by strength, until just previous to the close, when there was a slump in Distillers' and Chi-cago Gas. Distillers was rather heavy all day, and refused to respond to the adlast fifteen minutes of business it sud-denly dropped to 18 1-8, a loss of about 2 per cent. for the day. The break was due to a rumor that the quo-warranto case had been decided against the company. The story was circulated just before the close, but it was impossible to confirm it.
Chicago Gas deckined, but later recovered
mearly all of the deckine.
The milway list

The railway list was strong, and on good buying by commission houses, an advance of anywhere from 1-2 to 2 per cent, was recorded. Susquehanna and Western preferred was an exception, and sold up nearly four points, on the belief that the company has weathered the storm. It is understood that the money required to meet its pressing obligations has been provided for, and that a practical railroad-man will have charge of the company's opening department in the future. In addition, it is asserted the company will be found working in harmony with the big anthractic roads in the future. Western preferred was an exception, and

tions would leave the country in a distressing position as regard supplies for the coming year.

July wheat opened at from 79 5-8 to 79 5-80., sold between 59 1-8 and 28 1-80. and closed at 78 3-8073 1-30. 45. lower than yesterday. Cash wheat was about 1-2c, lower when trading was in progress, but at the close prices were nominally 1 1-292c, lower.

Corn—The country sold corn early in the session, and the professional and country friends kept selling all day. It was not, however, a very active or important market, but the sentiment favored lower prices, and they declined. The rains and particularly cheerful advices about the crop inclined the trade to a bearish view of the situation, which, taken in conjunction with a weak wheat market, resulted in lower values. July corn opened at 50 7-80., sold between 51 3-8 and 50 1-20. and closed at 50 5-80.—3-40. under yesterday. Cash corn was 1-20. lower.

Outs—Like other grains, oats were be-

2-kc. under yesterday. Cash corn was 1-2c. lower.

Oats—Like other grains, oats were believed to have derived benefit from the rain, and prices were not so good. There were evidences of selling by the clevator people, and some country orders of a similar character were received. July oats closed 3-8c. lower. Cash oats were off, to correspond with the futures, the average loss to prices being 1-2c.

Provisions—The trade in provisions was very light, and prices were lower. The hog market finished a weak motive, and speculators found comfort in the grain markets. The market deragged most of the session, no incident worthy of note transpiring. July pork closed 15c. lower, and July lard and July ribs each 5c. lower.

CHICAGO PRODUCE MARKET.
CHICAGO, June 12.—The bears discovered that the opportunity to break prices in wheat had 'arrived this morning. They were not slow to avail themselves of that opportunity, and the decline shown at the close testified to the success achieved. The rains of last night made it possible to engineer a slump, the buying against "puts" early being the only obstacles encountered, and even three proving a weak element during the last hour, for the sellers of them turned sellers of wheat to protect themselves. It was argued that the showers would increase the yield of wheat, and still the contention was appropriately made that they would prevent further deterioration, and that a continuation of normal condi-PORT OF NEWPORT NEWS, June 12th.
